

# CNI Plugin in Kubernetes

K8s Networking Plugin

# CNI Plugin

- CNI Plugin Concept
- Selecting Network Plugin
- Install Network Plugin

# CNI Plugins

- **CNI Plugins** are Kubernetes Network Plugins.
- CNI Plugins provide connectivity between Pods as per K8s Network Model.
- Multiple CNI Network Plugins available.

# Selecting Network Plugin

- Selection of CNI Plugin depends on your Business Needs.
- You may need to go thru the K8s Network Documentation to get the idea about different-different Network Plugins.
- Our HA SetUp, we used Calico Network Plugin.

# Install Network Plugin

- Each Plugin have it's own Installation way.
- In HA SetUp, we Installed Calico using Calico YML file.
- **Note** - K8s Nodes will remain **NotReady** until you install Network Plugin. And user won't be able to Run Pods.

# Hands On Demonstration
