TroubleShoot Kubernetes Cluster

K8s : Check Container Logs

K8s TroubleShooting

➔ **Container Logging**

➔ **Kubectl Logs**

➔ **Hands On Demonstration**

Container Logging

➤ K8s container maintain the logs, which can be used to get the insight of container processing or function.

➤ Container logs contains everything written to the Standard output and error stream by container process.

➤ kubectl logs command used to view the container logs.
   kubectl logs <pod-name> -c <container-name>

Hands On Demonstration

Thank You...

Don't be the Same! Be Better!!!
